Dear Sean,

Thank you for your continuing service to our community and to the people of Oak Park.

As we discussed previously, Oak Park Residence Corporation is interested in applying for a waiver of the right-of-way obstruction permit fee and the parking obstruction fee related to the construction of the new development at 7 Van Buren. This request is made to allow for construction material staging and construction administration in the area within the boundaries of the construction fence installation previously approved (diagram attached) during the course of site demolition, excavation, footing and foundation installation, and building construction (approximately 18 months). Thank you again for your assistance in this matter, and please don't hesitate to reach out to me with any questions regarding this request for a waiver of the right-of-way obstruction permit fee and the parking obstruction fee for 7 Van Buren.

Kindest regards,

David
