Proposed Improvement: In general, the improvements consist of the installation of pvc sewer mains, a pre-cast junction chamber approximately 31 feet deep, precast manholes, drainage structures, removal and installation HMA pavements, pavement patches, curb and gutter, sidewalks, pavement markings, and restoration of landscaped parkway areas; and all appurtenant work thereto.

### Bidders Instructions

1. Plans and proposal forms may be obtained via the electronic service starting on October 7, 2021 at 10:00 a.m. Plans and proposal forms can be found at <https://www.oak-park.us/your-government/budget-purchasing/requests-proposals> or at [www.questcdn.com](http://www.questcdn.com) under login using QuestCDN number **8044477** for a non-refundable charge of \$30.00. Contractors must purchase bid documents and be shown on the Bidder's Planholder List in order to bid. Bids received from contractors who are not in the Bidder's Planholder List will be rejected. The Village of Oak Park reserves the right to issue plans and specifications only to those contractors deemed qualified. All prospective bidders must prove they are pre-qualified by the Illinois Department of Transportation, or other approved Federal agency, by providing a certificate of eligibility to the Engineering Division at which time a password will be issued for access to the online bid documents. No plans will be issued to prospective bidders after **4 P.M.** on the working day preceding the opening of bids. The

electronic VirtuBid™ online bidding platform for this specific project will be opened approximately one week prior to the bid opening date.

2. At the bid opening, all proposals must be accompanied by a proposal guaranty in the amount of 5% of the bid amount. The proposal guaranty shall be in the form of a bid bond executed by a corporate surety company or a bank cashier's check. If this proposal is accepted and the undersigned fails to execute an agreement and contract bond within ten (10) days after the Notice of Award, it is hereby agreed that the bid bond or check shall be forfeited to the Village.
3. The awarding authority reserves the right to waive technicalities and to reject any or all proposals as provided in Article 102.01 of the 2016 "Standard Specifications for Road and Bridge Construction," prepared by the Illinois Department of Transportation.
4. The work to be performed pursuant to this Proposal is subject to the Illinois Prevailing Wage Act, 820 ILCS 130/0.01 et seq.
5. Bidders need not return the entire proposal when bids are submitted to the online electronic bidding service. Portions of the proposal that must be uploaded are indicated below include the following:
  1. Proposal Cover
  2. Contract Proposal
  3. **Contract Schedule of Prices – To be Completed on QuestCDN site**
  4. Proposal Bid Bond
  5. Contractor's Certification
  6. Tax Compliance Affidavit
  7. Fair Employment Practices Affidavit of Compliance
  8. Village of Oak Park EEO Report
  9. Certificate of Compliance with Multi Project Labor Agreement (MPLA)
  10. MWRD M/W/SBE Utilization Plan and VBE Commitment Form
6. The bidder is specifically advised that the Village is a Subgrantee of a Metropolitan Water Reclamation District of Greater Chicago (MWRDGC) grant, pursuant to an agreement entered into and between the MWRDGC and the Village. The Contract will be subject to the requirements of the Multi-Project Labor Agreement. A copy is on file at the offices of the Engineer and may be requested from the Engineer. The Contractor shall execute the form entitled "Certificate of

Compliance with Multi Project Labor Agreement (MPLA)” as found in the Bid Proposal Submittal Packet.

7. The MWRDGC requires that contractors entering into contracts shall have a performance bond and a payment bond. The Contractor shall furnish a satisfactory performance bond in the sum of the amount of the contract in dollars guaranteeing the proper completion of the work. The Contractor shall furnish a satisfactory payment bond in the full amount of the Contract guaranteeing payment of all material used and for all labor performed.
8. The bidder is specifically advised that the Village is a Subgrantee of a Metropolitan Water Reclamation District of Greater Chicago (MWRDGC) grant, pursuant to an agreement entered into and between the MWRDGC and the Village. Each bidder is required to comply with the MWRDGC’s Affirmative Action Requirements and Affirmative Action Ordinance, of which are included within the bidding documents. The DBE requirements listed within these Contracts are **requirements** (except for VBE). Minimum requirements are as follows:
  - A minimum of \$100,000 in work performed by Minority-Owned Business Enterprises (MBE);
  - A minimum of \$50,000 for Women-Owned Business Enterprises (WBE);
  - A minimum of \$50,000 for Small Business Enterprises (SBE);
  - And a minimum GOAL of \$15,000 in work performed by Veteran-Owned Business Enterprises (VBE)

Note: Proposal Guaranty Checks or Proposal Bid Bonds should be uploaded to the Qualification Information section of the online electronic bidding system.

Proposal of TRINE CONSTRUCTION CORP.

1041 TRINE CT SUITE A ST. CHARLES, IL 60174

for the Lemoyne Relief Sewer, Project 21-1 as noted herein and perform all appurtenant work thereto.

1. The plans for the proposed work are those prepared by the Engineering Division of the Village of Oak Park, 201 South Boulevard, Oak Park, Illinois dated October, 2021.
2. The specifications referred to herein are those prepared by the Department of Transportation and designated as 2016 "Standard Specifications for Road and Bridge Construction" and the "Supplemental Specifications" there to, the "Standard Specifications for Water and Sewer Construction in Illinois", and the "Manual for Uniform Traffic Control Devices", adopted and in effect on the date of invitation of bids.
3. The undersigned agrees to accept, as part of the contract, the applicable Special Provisions indicated on the "Check Sheet for Supplemental Specifications and Recurring Special Provisions" contained in this proposal.
4. The undersigned agrees to complete all work before the date of **July 1, 2022** unless additional time is granted in accordance with the specifications.
5. Accompanying this proposal is a bid bond on the Village Bond form, complying with the specifications, made payable to the Village of Oak Park.
6. If this proposal is accepted and the undersigned fails to execute a contract and contract bond as required, it is hereby agreed that the Bid Bond or check shall be forfeited to the awarding authority.
7. Each pay item should have a unit price and a total price.
8. The unit price shall govern if no total price is shown or if there is a discrepancy between the results of unit price multiplied by the quantity.
9. If a unit price is omitted, the total price will be divided by the quantity in order to establish a unit price.
10. A bid will be declared unacceptable if neither a unit price nor a total price is shown.
11. The undersigned firm certifies that it has not been convicted of bribery or attempting to bribe an officer or employee of the State of Illinois, nor has the firm made an admission of guilt of such conduct which is a matter of record, nor has an official, agent, or employee of the firm committed bribery or attempted bribery on behalf of the firm and pursuant to the direction or authorization of a responsible official of the firm. The undersigned firm further certifies that it is not barred from bidding on this contract as a result of a conviction for the violation of State laws prohibiting bid-rigging or bid-rotating.

12. This Contract is subject to "An act regulating wages of laborers, mechanics, and other workers employed in any public works by the State, County, City or any other public body or any political subdivision or by anyone under contract for public works". (see Special Provision for details).
13. The undersigned submits herewith this schedule of prices covering the work to be performed under this contract:

**Special Note: The Prevailing Wage Act / Federal Requirements require maintaining and submitting Certified Payroll records monthly for all entities working on this project.**

## Proposal Bid Bond

WE Trine Construction Corp.

as PRINCIPAL, and Hudson Insurance Company

as SURETY,

are held and firmly bound unto the Village of Oak Park, IL (hereafter referred to as "VOP") in the penal sum of 5% of the total bid price, or for the amount specified in Article 102.09 of the "Standard Specifications for Road and Bridge Construction" in effect on the date of invitation for bids. We bind ourselves, our heirs, executors, administrators, successors, and assigns, jointly to pay to the VOP this sum under the conditions of this instrument.

WHEREAS THE CONDITION OF THE FOREGOING OBLIGATION IS SUCH that, the said PRINCIPAL is submitting a written proposal to the VOP acting through its awarding authority for the construction of the work designated as the above section.

THEREFORE if the proposal is accepted and a contract awarded to the PRINCIPAL by the VOP for the above-designated section and the PRINCIPAL shall within fifteen (15) days after award enter into a formal contract, furnish surety guaranteeing the faithful performance of the work, and furnish evidence of the required insurance coverage, all as provided in the "Standard Specifications for Road and Bridge Construction" and applicable Supplemental Specifications, then this obligation shall become void; otherwise it shall remain in full force and effect.

IN THE EVENT the VOP determines the PRINCIPAL has failed to enter into a formal contract in compliance with any requirements set forth in the preceding paragraph, then the VOP acting through its awarding authority shall immediately be entitled to recover the full penal sum set out above, together with all court costs, all attorney fees, and any other expense of recovery.

IN TESTIMONY WHEREOF, the said PRINCIPAL and the said SURETY have caused this instrument to be signed by their respective officers this

Dear Ms. Garth:

The Illinois Department of Transportation (IDOT) has approved the *No Change Affidavit* for Garth Building Products & Services Corporation and determined that the firm continues to meet DBE eligibility standards to perform work towards DBE goals.

To remain certified and in good standing, you must annually submit a *No Change Affidavit*. Your firm's next affidavit is due on **May 1, 2022**. IDOT will send an affidavit form 60 days prior to that date.

Should the submitted information change, you are required to notify IDOT's Bureau of Small Business Enterprises within 30 days of the change.

**Note:** Pursuant to 49 CFR Part 26.83(i), whenever there is a change in circumstances affecting your firm's eligibility status, your firm must provide written notification to IDOT within 30 days of the occurrence of the change. If you fail to make timely notification, it may result in the loss of your firm's certification.

If you have any questions, please contact the Bureau of Small Business Enterprises at (217) 782-5490.

Sincerely,

## **LEAK DETECTION AND SURVEY REPORT**

**Description.** This work shall consist of furnishing all labor, material, and equipment necessary to perform a leak detection survey of the water distribution system in areas throughout the project limits and develop a report outlining suspected leak locations.

**General Requirements.** The Contractor shall furnish all labor, material, tools, and equipment necessary to survey the water distribution system areas as Directed by the Engineer. The Contractor shall be required to provide such skilled and trained personnel and equipment necessary to complete the work herein specified. Valves and hydrants shall not be operated by the Contractor without the Public Works Department approval. The Contractor shall be responsible for any valves and hydrants that break during this type of operation. The Contractor shall ensure there will be a minimum of two persons per team working on the survey at all times. The Contractor shall work in an orderly and safe manner to ensure protection of the local residents, the Engineer, Public Works employees, and the field staff so that no avoidable accidents occur.

**Equipment.** The Contractor shall submit a list of all leak detection equipment to be used to the Engineer for approval, prior to work commencing.

**Survey Schedule.** In resurfacing sections, the leak detection survey shall be completed after hot-mix asphalt binder course has been placed and before the final hot-mix asphalt surface course has been placed. The Contractor shall coordinate with the Engineer to determine the exact survey schedule during construction.

**Inspection Requirements.** The Contractor shall initially listen to all fire hydrants, all accessible main line valves, and all service connections in the entire distribution system by making physical contact with the valve, hydrant, pipe, or B-box. If listening points are not accessible they shall be given to the Public Works Department and when corrected they shall be listened to. Listening points of contact will be: valves, hydrants, service valves or meter settings. The preference of listening points in order as follows; direct contact with the pipe, main line valves, hydrant valves, hydrants, then service valves or meter settings.

Specific listening distances will be determined by pipe material. Metallic type pipes; no greater than 500' between listening points. Non-Metallic AC/Concrete type pipes; no greater than 300' between listening points. Non-Metallic PVC/HDPE type pipes; no greater than 150' between listening points.

A "suspected leak" log shall be maintained indicating all areas where suspected leak noises were heard. This log shall be reviewed when the Contractor is verifying the suspected leak area for confirmation of the actual existence of a leak. This log shall be a part of the periodic reports turned into the Engineer regardless of an actual leak located in the area or not, with an explanation of the noise source. When leak noise has been detected and or suspected, the Contractor shall verify the suspected area a second time to confirm the noise. At least four hours will pass between the initial listening of the area before a second listen and confirmation is attempted.

The Contractor shall line locate the water main and service lines in the immediate area so the correct pipe distances can be input into the leak correlator and so that the Contractor will have an idea of where the water main is located prior to excavation. The Contractor shall use approved Electronic Leak Correlators to determine if a leak is present and use the same equipment to pinpoint the leak.

The leak location shall be marked in the field (on the surface) using blue paint. No paint shall be applied to decorative surfaces or appurtenances.

The Contractor shall document all leak locations with a diagram indicating the location of the leak. Other information related to that correlation shall be included as part of the field sheet such as the filters used for the correlation, line locations, distances between sensors, etc.

The locations of leaks requiring immediate attention (immediate threat to life, injury or traffic) shall be turned in as quickly as possible to the Engineer to facilitate the repair process.

The Contractor shall report daily or per request of the Engineer, progress of the previous day, as well as cover what will be surveyed the current day.

It may be necessary to conduct parts of the Leak Survey during "off hours" such as at night. This may be required in areas of high traffic volume where traffic noise may affect the ability to detect leak noise, and traffic volume may affect the ability of the Contractor to be able to safely access main line valves in the middle of the street. The Contractor shall give at least a 24-hour advanced notice to the Engineer the intent to survey a particular area that may require after hours surveying or nighttime surveying.

As a part of the leak detection survey, mapping discrepancies found and distribution assets found in disrepair shall be noted and turned into the Engineer.

Leaks shall also be verified on a customer's side of a service shut-off shall. If a leak appears to be on the Customers' side, the Engineer and Public Works department shall be notified first, then the customer notified. The Engineer must approve all water shuts downs prior to work commencing.

Final Reports, Documentations & Communications. The Contractor shall meet daily with Engineer to go over areas of survey for prior workday and planned current day areas to survey. The field technicians shall be readily available by cellular phone, if needed.

The Contractor shall diagram all leak locations, date of location, and classify according to severity and an estimate of loss. The Contractor shall meet with the Engineer regularly for a progress report. The use of progress reports and meetings will allow for open discussions of problems encountered so solutions can be examined.

The Contractor shall develop a Leak Survey Log of activity which shall also have confirmed leaks listed. This list shall be turned in weekly to the Engineer in a professional and organized format. The list shall be included with the final report.

The final report shall include the following.

1. Mechanical deficiencies discovered
2. Mapping errors on the water atlas
3. Type of monitored appurtenances
4. Location of leaks

The Contractor shall prepare the final report at the completion of the inspection which will include all leak location reports with drawings, total of estimated water loss, total pipe distance investigated, a description of the area surveyed, and other problems found in the system during the course of the survey that need the attention of the Public Works Department. The leak summary will list leak types such as main leaks, service line leaks, valve leaks, or hydrant leaks.

The final report shall be made available to the Engineer within ten (10) working days of the completion of the fieldwork.

Method of Measurement of Basis of Payment. This work shall be measured for payment on a lump sum basis.

Basis of Payment. This work shall be paid for at the contract lump sum price for LEAK DETECTION AND SURVEY REPORT and shall include all labor, material, and equipment to complete the work as specified or as Directed by the Engineer
