Any problems with obvious resolutions that are covered under the standard SLA will be undertaken by Support as if they had been reported by the Village. All issues will be reported to the Village in the monthly report and recommendations will be given for issues that were not already resolved. The monitoring tool will capture data during regular support hours, Monday through Friday.

\*Exclusive of travel and expenses. Non-transferable, no redeemable value if the Village decides not to attend conference.

†Services cannot be exchanged for product. 25% of unused services hours can be carried into subsequent maintenance year for up to 2 months. Otherwise, hours disappear if not used.

††Fee changes require time to implement, test, and deliver into Production. We require that approved fee schedules be submitted to us a minimum of 60 days before becoming effective in order to ensure they can be delivered by their effective date.
