

Fiscal Year 2025

Quarterly Financial Update (unaudited)

Period Ending June 30, 2025

Kevin Jackson
Village Manager

"Without continual growth and progress, such words as
improvement, achievement, and success have no meaning"

-Benjamin Franklin

In an effort to better inform the Board, Village Employees and the public about current fiscal conditions. Working together the Chief Financial Officer's office and the Village Manager's office will produce an unaudited Quarterly Financial Report on a recurring basis.

This FY2025 Second Quarter Report presents financial information on revenues and expenditures through June 30, 2025, the end of the second quarter.

General Fund Revenue Analysis

The General Fund Revenues are derived from taxes, fees, and charges that the Village assesses to provide services to its citizens. Such revenues are comprised of the following board revenue categories highlighted on the following pages.

- Tax Revenues (e.g. - property taxes)
- Licenses, Permits and Fees (e.g. - business licenses)
- Charges for Service (e.g. - police reports)
- Fines (e.g. - parking tickets)
- Other Financing Sources (transfer of resources from other funds)

2025	809,982	1,250,000	1,250,000

Property Tax Revenues

Property tax revenues are the proceeds the Village receives from assessing taxes on residential and commercial properties. Each year, the Village board adopts a fixed levy that is used to fund operations, debt service, and the Village's contribution to the Police and Fire Pension Funds. To collect the necessary amount, the County extends the levy by a set percentage beyond the Village's request to account for any potential loss in collections. This additional percentage varies from 3% to 5%.

Property Tax Revenue Drivers Include:

- Equalized Assessed Valuation (EAV)
- Local Tax Rates
- Timing of EAV assessments and the collection process

Comments: As illustrated below, property tax revenue historically is received at the budgeted amount. Variances may occur due to appeals, but if an appeal is rejected, the Village would receive the revenue after the appeal decision.

Levy Allocation	FY 25 Budget	Actuals
General Operating Levy	\$ 18,529,522	\$ 10,334,471
Police Pension Levy	\$ 7,639,547	\$ 3,902,546
Fire Pension Levy	\$ 6,813,643	\$ 4,344,893
Total	\$ 18,529,522	\$ 10,334,471

Sales and Use Tax Revenues

In the State of Illinois, there is a base 6.25% Sales Tax on general merchandise. It is administered and collected by the Illinois Department of Revenue. One percent (1%) of this Sales Tax is distributed to the municipality where the sale occurred. This tax, officially referred to as the Retailer's Occupation Tax (ROT) is captured in the Village's General Fund and is used to support general Village operations.

The Village also imposes a 1% Home Rule Occupation Tax (HROT). While approved locally, this tax is also administered and collected at the state level. This tax is dedicated to the Capital Improvement Project (CIP) Fund. Pursuant to State law, the HROT tax is not assessed on qualifying food, drugs, or registered property purchases (vehicles).

Note: Sales tax revenue is remitted to the Village 3 months in arrears, For example tax for January is not received by the Village until March.

2025	3,881,553	8,750,000	8,750,000

Real Estate Transfer Tax Revenues

The Real Estate Transfer Tax (RETT) is a tax on the sale of property within the Village. The tax is assessed at \$8 for every \$1,000 of the selling or transfer price, or 0.8%. When no consideration is exchanged, Real Estate transfers are considered exempt and are subject to a flat rate fee in lieu of the RETT rate.

Real Estate Transfer Tax Revenue Drivers Include:

- Number of properties sold within the Village
- Selling price of the property within the Village

Liquor Tax Revenue

Liquor Tax Revenues are the revenues the Village charges to vendors selling liquor within the Village. The current Liquor Tax rate is 3% of the liquor purchase price. This is a locally administered tax.

Liquor Tax Revenue Drivers Include:

- Number of licensed liquor-selling establishments within the Village
- Customer volume of said establishments
- Retail Value of Liquor sold within the Village

Natural Gas Use Tax Revenues

The Natural Gas Use Tax is a tax that the Village charges to customers who purchase natural gas from outside the State of Illinois. It is assessed at 5.0 cents per therm and collected and remitted by NICOR. This tax should not be confused with the portion of the Utility Tax Revenue derived from natural gas purchased within State lines.

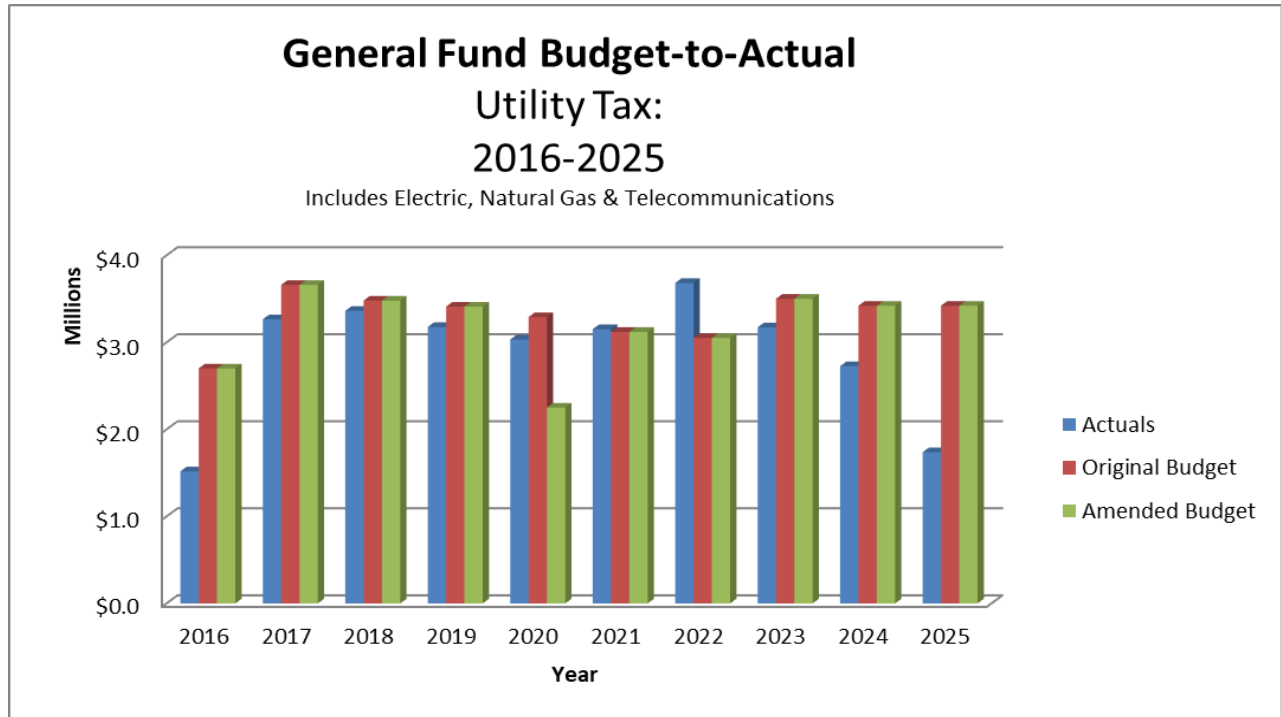

Note: Nicor pays the Village Natural Gas Tax and Natural Gas Use Tax in a single payment; the Village must then calculate the dollar amount to apply to each fund and make a journal entry accordingly.

Utility Tax Revenues

The Electricity Tax and the Natural Gas Tax are both assessed based on user consumption within the Village. The Electricity Tax is based on the number of kilowatt hours (kWh) consumed. The actual rate varies from a low of \$0.00202/kWh to a high of \$0.0033/kWh, based on usage. The Natural Gas Tax is assessed on natural gas purchased within State lines at a rate of 5.0%.

Charges for Services

The Village provides several services for which it charges a fee directly to the user. Such revenues are comprised of the following board revenue categories

- Ambulance User Fees
- Crossing Guard Reimbursements
- Police Report Duplication
- Alarm Service Fees
- Special Event Fees

**General Fund Budget-to-Actual

Licenses and Permits

The Village charges fees to individuals, businesses and other entities to acquire authorization and permission to conduct certain activities within the Village. These authorizations and permissions are extended in the form of licenses and permits. For example, the Village charges business licensing fees for entities that wish to conduct business within the Village. Individuals that wish to park in public spaces within the Village must acquire a parking permit.

General Fund Expenditure Analysis

General Fund Expenditures are the expenditures related to the performance of direct Village services, such as police, fire, public works, and housing services. General fund expenditures also relate to the performance of administrative services such as finance, human resources, and information technology. General Fund Expenditures are managed within the Village's General Fund, and are comprised of the following expenditure types:

- Personal Services & Fringe Benefits
- Materials & Supplies
- Contractual Services
- Capital Outlay

Personnel and benefits comprise the majority of the expenses within the General Fund and include salaries (regular pay, overtime, allowances, ect.) and fringe benefits including health insurance, IMRF, Police and Fire Pensions.

Personnel & Benefits Expenditures

Personnel Service expenditures include the compensation of Village staff to perform Village services and activities. Given the labor-intensive nature of Village services, personnel and benefits expenditures typically make up the most significant proportion of general fund expenditures.

Fringe Benefits expenditures are the expenditures for the insurance and pension support the Village provides its employees. Similarly to Personal Services, Fringe Benefits typically make up a large portion of general fund expenditures.

Personnel & Benefit Expenditure Drivers Include:

- Changes in Labor Agreements
- Vacancies
- Health Insurance and Pension Costs

Materials & Supplies Expenditures

Materials and Supplies expenditures are related to maintaining administrative operations within Village departments. These expenditures include costs such as printing costs, general maintenance and upkeep, telephone services, and software support.

Materials & Supplies Expenditures Include:

- Use of Village-Owned Property and Equipment
- Maintenance of Village-Owned Facilities and Infrastructure

Capital Outlay Expenditures

Capital Outlay Expenditures within the operating budget are for items that do not meet the capital dollar or applicable life threshold for inclusion in the Capital Improvement Fund Budget. Their smaller purchases are therefore funded by general operating revenues rather than bond or other debt issuances.

Items in this category often have a higher purchase value and longer expected useful life than items categorized under materials and supplies. Capital Outlay Expenditures usually include office equipment, computer equipment, and the purchase of specific software programs.

Enterprise Fund Overview

Enterprise Funds are distinguished from other Village Funds in that they are often run like to a businesses and funded by user fees rather than taxes or other revenue sources typically assessed to the public for funding general Village operations.

Enterprise Funds usually serve a very specific purpose, such as providing water/sewer services or refuse pickup, and such services are billed directly to the customer or user of such service.

For these types of Funds, the Village may still issue bonds to help pay for non-routine capital improvements or expenditures. Still, the payment on the debt service for these bonds is usually abated (removed) from the tax levy and paid by user fee revenue within the Fund. Finally, although expenses in these Funds are kept separate and not paid for by general Village revenues, the same rules apply regarding purchases, and the same level or degree of due diligence is performed to receive the best services at the lowest possible cost.

The Village currently has the following three Enterprise Funds highlighted on the following pages

- Water & Sewer Fund
- Parking Fund
- Environmental Services Fund

Water & Sewer Fund Revenues

Public Works is responsible for the delivering of safe, potable water to residents and businesses within the Village and for fire suppression. Purchased directly from the City of Chicago, water is stored in several sites throughout the Village and pumped through water mains. Personnel and contractors supported by this fund are responsible for the emergency replacement of broken mains, repair and exercising of system water valves and fire hydrants, and repair and replacement of water meters and pumping equipment.

Village sewage is transported to the interceptor sewers of the Metropolitan Water Reclamation District of Greater Chicago (MWDGC), where it is eventually treated and discharged into the receiving streams. Revenues for the Sewer portion of the Fund are generated through water system users as a portion of the utility charges. The Village does not pay the MWDGC for discharging to their sewers. Property owners are assessed on their property tax bill for this service.

Environmental Services Fund Revenues

The Public Works Department provides oversees and manages the Environmental Services Fund through its Environmental Services Division. This division operates the Village's solid waste collection and comprehensive recycling programs. A contracted waste hauler provides waste, compost, and recycling collections. The contracted services are provided to single and multi-family residential structures up to five units and several municipal and institutional facilities.

The Environmental Services Fund also supports the fall leaf collection program, Keep Oak Park Beautiful programs, At Your Doorspecial collections, and an enforcement program that enforces Village Ordinances including solid waste and alley-related violations.

Capital Improvement Fund Overview

The Capital Improvement Fund generates revenue through a dedicated one percent home rule sales tax, a six-cent per gallon gasoline tax, a 3% local cannabis tax, and a telecommunications tax distributed through the state.

The fund's most notable expenses are the repair and replacement of local streets, alleys, and sidewalks. It also funds the other capital funds through inter-fund transfers.

The Public Works Department is responsible for the oversight and management of three Capital Funds, including the

- The Capital Improvement Fund
- The Building Improvement Fund
- The Fleet Replacement Fund

These funds support equipment and projects with an extended life. Streets, sidewalks, HVAC systems, and vehicles are typical expenditures from these funds. The Capital Improvement Fund also includes expenditures for personnel salaries and benefits that support the Fund's programs and projects.

The Finance Department is responsible for overseeing and managing the Equipment Replacement Fund, which tracks expenses related to major technical equipment purchases for Village departments.

Capital projects must meet the following criteria:

- Minimum value of \$10,000 or lesser value if aggregated as part of a larger project
- Useful life of longer than two years
- Results in a fixed asset
- If an engineering study leads to a capital program

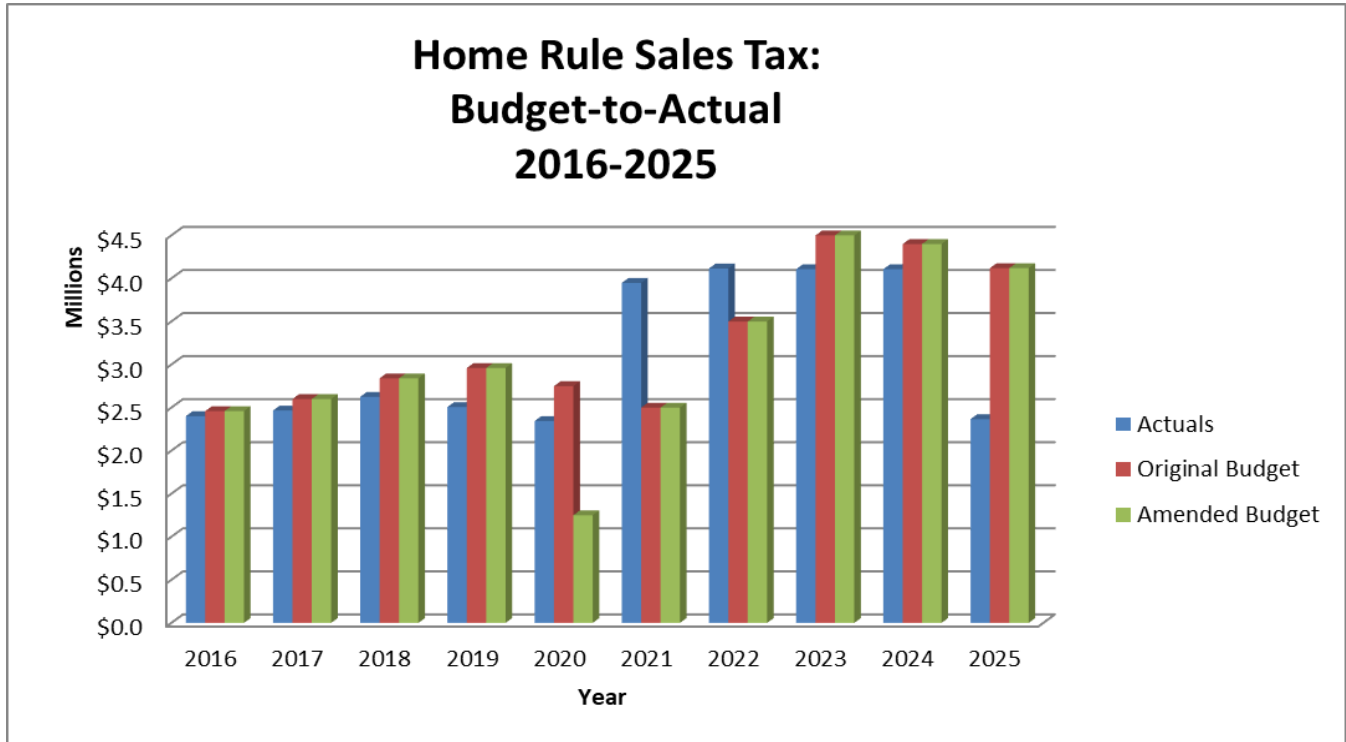

Capital projects include costs in the following six main categories:

- Professional Services
- Land Acquisition
- Infrastructure Improvements
- Building Improvements
- Machinery and Equipment
- Other/Miscellaneous

Home Rule Sales Tax Revenue

The Village imposes a 1% Home Rule Occupation Tax (HROT) upon applicable retail businesses located within the Village. While approved at a local level, this tax is administered and collected at the state level. It is dedicated for Village capital projects and is accounted for separately separately in the Capital Improvement Project (CIP) Fund.

It is important to note that this tax is subjected to a delay period between collection and redistribution. A rolling three-month period is required between collection and redistribution from the State to the Village.
