

**Village of Oak Park  
Capital Improvement Fund Project Sheet  
2021 - 2025**

Project: Thermoplastic Striping

Priority Code: A

Category: Infrastructure Improvements

**Description:**

The Village re-stripes a portion of its streets each year in order to maintain their visibility using a material called Thermoplastic. Work will also include refreshing the striping and symbols used for bike lanes and "share the road" pavement markings. In addition, this work will also include repairing or replacing the specialty crosswalks such as those seen in the Harrison Arts District.

**Justification:**

Thermoplastic pavement markings typically last three to five years depending on traffic and weather. This material holds service life longer than using painted pavement markings.

**Current Status:**

This program is completed every other year. In 2021 Ridgeland Ave, Division, and other areas will be restriped where needed.
