The Village's acceptance of any of Consultant's professional Services shall not relieve Consultant of its responsibility to subsequently correct any such errors or omissions, provided the Village notifies Consultant thereof within one year of completion of the Consultant's Services.

10.3. The Consultant shall respond to the Village's notice of any errors and/or omissions within seven (7) days of written confirmation by the Consultant of the Village's notice. Such confirmation may be in the form of a facsimile confirmation receipt by the Village, or by actual hand delivery of written notice by the Village to the Consultant.

11. DRAWINGS, DOCUMENTS AND BOOKS AND RECORDS.

11.1. 14.1.5. The Village may recover any damages suffered by the Village as a result of the Consultant's Event of Default.

15. NO COLLUSION.

15.1. MEMORANDUM

March 24, 2017

TO: Cara Pavlicek

CC: John P. Wielebnicki

FROM: Bill McKenna

RE: Agreement for Design Engineering for the Pedestrian Signal Improvement Project

The Village received a \$137,280 Safe Routes to School Grant in November of 2014 for upgrading pedestrian signals to LED countdown signals and upgrading traffic controllers at 26 signalized intersections. Since this time staff has been completing the phase 1 preliminary engineering on this project. Phase 2 design work for this project was originally anticipated to be completed by staff but due to other priorities staff cannot dedicate the necessary time to this project to move it forward and complete the project in 2017. In order to keep the project advancing and not risk losing federal funds the Engineering Division requested proposals for completing the phase 2 design engineering and for providing construction management on this project.

The Village received proposals from six firms. The proposal from HLR best fit the Village's needs while also being very competitive (see attached summary of proposals). The cost of the phase 2 design work is \$24,825. The phase 3 construction management cost is \$17,093. Since this is a federally funded project the Village can only award the phase 2 design portion of the contract at this time. The phase 3 construction management portion of the work will need to be awarded by the Board following design approval and will utilize federal funding for approximately 80% of the costs.

The FY2017 budget provides \$171,600 in the CIP fund for Traffic Signal Management account # 3095-43780-101-570971 for construction of this project but does not include funds for the phase 2 design work of this project since it was anticipated to be done in-house. Staff is recommending using CIP funds in this same account originally designated for miscellaneous traffic signal controller replacements to fund the design of this project. Should you approve the agreement a budget amendment will be submitted at the next quarterly amendment to transfer funds internally in this account to cover the design of this project.

Please execute the attached 2 professional service agreements for the engineering design work.
