**Fenwick High School
Planned Development Submittal-Parking Garage
Item #8 f. – Building Elevations**

Fenwick's new Parking Center is designed to complement the collegiate gothic architectural character of the existing school buildings. The walls will be clad in granite and architectural precast "limestone" to complement the materials used on the Scoville, Washington Blvd, and East Ave elevations. The type of construction will be cast in place concrete structure with architectural precast walls. The openings in the facades will have black prefinished metal to resemble the character of the existing school fenestration.
