DRIVE-THRU | SPECIAL USE PROPOSAL STATEMENT

The proposed programming for 7 Lake St. includes an internal drive-thru adjacent to the coffee roastery programming. The program serves local residents and commuters traveling back and forth from the city with an option for those on a quick time constraint. This program nods to the prior use of the building and maintains the structures ability to accommodate both cars and people simultaneously. Approximate hours of operation for the drive-thru and adjacent bypass lane will be 7AM - 11AM. During non-operating hours of approximately 11:30AM - 7PM, the bypass lane has the opportunity to function as additional seating or dining for the cafe. No outdoor dining will be provided. Full fire protection systems will be designed with MEP consultants post ZBA approval.

Explain why, in your opinion, the grant of this request will be in harmony with the neighborhood and not contrary to the intent and purpose of the Zoning Ordinance or Comprehensive Plan;

The direction of the neighborhood within which 7 Lake St. sits is a community forward approach while blending
unique one-off programs to draw both local and additional visitors to support these businesses. The drive-thru
function adds an unexpected, eclectic yet functional program to compliment the proposed coffee roastery/shop
program. The drive-thru function nods to nostalgia while providing a 21st century functionality to its local/non-local
residents.

I (we) certify that all the above statements and the statements contained in any papers or plans submitted herewith are true to the best of my (our) knowledge and belief.

I (we) consent to the entry in or upon the premises described in this application by any authorized official of the Village of Oak Park for the purpose of securing information, posting, maintaining and removing such notices as may be required by law.

Re: 7 Lake Street Coffee Shop Project, Special Use Permit Application for an interior drive-thru

Approval Standards Questionnaire Responses

1. The establishment, maintenance, and operation of the proposed special use will not have a substantial or unduly adverse impact on the neighborhood or endanger the public health, safety, or welfare.

We identify that adding a drive thru impacts pedestrian traffic at North Blvd. and the new curb cut on Lake St. will likewise increase vehicular traffic across the pedestrian walkway. We propose audio / visual warning systems and manned staff at the front and rear doors of the space during drive-thru operational hours.

2. The proposed special use is compatible with the general land use of adjacent properties and other property within the immediate vicinity.

All of the land use of adjacent properties is zoned NC Neighborhood Commercial. Similarly, properties in the immediate vicinity are zoned NC, aside from parks zoned Open Space. Therefore, this is compatible as it is also a commercial space with a specialty of a drive-thru to help the community access its product during peak commute hours of 7AM - 11AM. The rest of the time the space is open, this drive-thru will not operate as such.

3. The special use in the specific location proposed is consistent with the spirit and intent of this Ordinance, adopted land use policies and the Comprehensive Plan.

4. The special use meets the requirements for such classification in this Ordinance.

As per the zoning chart we are requesting a special use permit because the drive-thru is not typically allowed in this zone. However, the drive-thru will have limited operating hours over the course of the day and all requirements re: lane widths, stacking spaces etc are successful in this proposal.
