Parking Lot Regulation Signage

Priority Code: D

Category:

Infrastructure Improvements

Climate Priority Code

Climate Impact Area(s N/A

Description:

Fabrication and installation of a new/revised Village-wide Wayfinding System that will include the parking structures and off-street surface lots. The current system, installed in 2003, has over 600 signs and poles throughout the Villages 94 surface lots and 3 parking structures.

Justification:

As a culturally rich community with multiple areas of interest including business corridors, a robust parking wayfinding system for tourists, residents and workers is important. It has been determined that the current wayfinding system is ineffective and needs to be improved. This project includes improvements to occupancy count signs for the Village's parking garages.

Current Status:

This project was originally planned to begin in 2020 but has been delayed due to the COVID-19 public health emergency and the prioritization of other capital projects. The monument sign located at the Marion Street entrance to the Holley Court parking structure is planned to be replaced with an enhanced sign in Spring 2024. Design work for this sign would occur in 2023 and construction would occur in 2024, in conjunction with the Village's North Marion Street streetscape project. Additionally, Village staff intends to conduct an inventory and condition assessment of all parking lot signage in 2024. This inventory and assessment will be used to go out to bid for the fabrication and installation of updated signage over a two-year period (FY 24 - FY 25).
