

Village of Oak Park
Water & Sewer Capital Project Sheet
2024 - 2028

Project: **Water and Sewer Vehicle Replacement**

Priority Code: **A**

Category: **Machinery and Equipment**

Description: Replacement of Public Works Water and Sewer Division vehicles.

Justification: The current equipment has been well used and is getting near the end of its useful life. The trade-in/resale will be impacted the longer it is in use. In order to operate most efficiently, newer, less worn efficient pieces of equipment are needed to keep the Water and Sewer Division the most productive it can be. Rebuilding or refurbishing will be considered when appropriate. Electric, hybrid, and alternative fueled equipment will be evaluated for usage as technology evolves. Staff will present the Board with the possible option and cost in alignment with the Village Climate Ready Oak Park Plan Goal: TS01 - Reduce Vehicle Emissions.
