

Dell PowerEdge R760XD2 Servers

About Us

AKA Government is a Chicago based technology solution provider, with a specialization in incorporating technology with the business or organization's requirements in a very seamless way. We do not provide ready made solutions but rather we research with our client's needs and develop a tailored solution to meet their vision.

Over the past 5 Years AKA Government has closely worked with many different business and organizations in the Chicagoland area as well as across USA from the technical side to understand the needs for integration of technology in the organization. We have assisted these entities in achieving a new level of acquaintance with the technology to provide the staff and team members with greater efficiency.

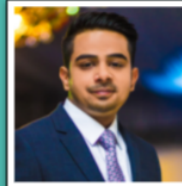

Our Engineers are well qualified to provide high quality services and maintenance in a very cost effective manner.

We not only render technical services but also provide professional development sessions for the administration as well as the staff members to get them acquainted with the newly deployed services.

The TOP 7 Reasons Why You'll Want To Outsource Your IT Support to Us:

You'll Get a Live Technician on the Phone When You Call - Guaranteed.

We give you unlimited local and live phone access to experienced and certified technicians and a guaranteed response time

Experienced, Certified, and All-Inclusive.

The AKA Comp Managed Services plan includes unlimited access to our team of Microsoft Certified technicians who solve problems correctly the first time, and save you money

We Manage and Maintain ALL Your IT Vendor Services.

We organize, maintain, and manage all third party resources and relationships with your other technology vendors so you won't have to spend YOUR time on hold and troubleshooting IT issues.

We Understand Security to Keep You Compliant.

The AKA Comp Managed Services team understands the importance of data security and compliance to keep our clients protected. We manage important security patches, e-mail and data encryptions, backups, disaster recovery planning and keep up with important compliance changes.

We Are Big Enough To Handle Any Computer Project, and Small Enough To Give You The Attention You Deserve.

Our clients tell us that working with friendly, polite, and good-humored engineers is as important as the skills and service they provide. Having frequent communication and close relationships means your entire team will be more productive, and having happy staff will ultimately lead to happy clients.

We Know How to Use Technology to Make Business More Productive.

Most other IT companies don't have enough experience working with small and mid-size business to make the RIGHT recommendations for business. We have saved our clients thousands of dollars with better suited vendors, software applications and services that saved money and improved productivity.

We Won't Nickel and Dime You!

Put an end to paying for problems that weren't fixed the first time. Sign up with AKA Comp to receive proactive technology support for a fixed monthly fee. Let us take the risk and manage your computers, servers and other network devices for the same monthly price we promise. On time and on budget – Guaranteed.

AKA Government Clients

AKA Non-Government Clients

What differentiates AKA Government from other Solutions Provider?

We are a one-stop solution for all of your IT needs. This means we make it all integrate and work together seamlessly.

We work closely with you to first identify the business objectives and then help you assess the IT needs. Using this, we create a Technology Plan or Roadmap which will help you decide and procure the right products and services for your environment.
