Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Sustainable Improvements
3. Courtyard Access and Programming
4. Green Spaces
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Meet the village departments events Standing information panels about major plans or projects. History events

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Parking
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

First Friday art fair with food trucks on the street

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Green Spaces
3. Parking
4. Sustainable Improvements
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Same as current usage

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Music, outdoor movie screenings

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Additional tree canopy

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Sustainable Improvements
3. Parking
4. Green Spaces
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Parking
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

More community events in courtyard

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Special Events

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

n/a

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Additional tree canopy

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Green Spaces
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

concerts, plays, presentations. this should be a living space.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

none. i don't care about this.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Parking
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Christmas carols

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Parking
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

N/A

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

This survey does not explain where the courtyard will be, or why the village seems to think we need to pave more green space.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Accessible Vehicular and Pedestrian Circulation
3. Parking
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

None. Bulldoze the place.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Parking
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

We loved the Juneteenth and Holi celebrations. Please keep all that greenspace for these mini-festivals and concerts.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Green Spaces
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

DO NOT PROCEED WITH THIS PROJECT!!! Campus is fine as is. This project is unnecessary, will add to tax burden, and doesn't address any real problems in the community. This is a boondoggle. Every penny spent on this project is theft from Oak Parkers.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

Don't do anything! Cancel the project. Not needed.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Green Spaces
3. Parking
4. Accessible Vehicular and Pedestrian Circulation
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I don't believe this should be a priority of the project.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

More seating and possibly a coffee cart or workshops.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Green Spaces
3. Accessible Vehicular and Pedestrian Circulation
4. Parking
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I have no idea. Not sure I care as long as they are occasional and not frequent. Community events are great but honestly disruptive to us.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Sustainable Improvements
3. Courtyard Access and Programming
4. Parking
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

food trucks, market, voting, outdoor concerts, games/play structure. The courtyard is the municipal center's space that should be programmed and activated. The hypothetical green space should not be prioritized for this, it should be buffer zone.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Native plantings

Additional tree canopy

Other (please specify)

1. Do not demolish Village Hall. Reuse it. This is the most obvious sustainability strategy for the project. 2. Prioritize alternative transportation: pedestrian, bicycles, public transportation. Minimize the amount of surface parking to the greatest extent possible. Bury the parking to the greatest extent possible.

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Parking
3. Green Spaces
4. Sustainable Improvements
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I don't need to see any programming just unstructured green space.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Green Spaces
4. Sustainable Improvements
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Events similar to Library, more community engagement around intiaitves

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Parking
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Available for community groups but honestly in person events are not the trend so this should not be a priority. There are many spaces in our community which provide that notably through PDOP.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I'd like to see you stop spending money on stupid building projects.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Other (please specify)

Don't do the project.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Parking
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

This is a required response- I think the project should be foremost thinking about the costs to the community- and NOT rebuilding the entire structure.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Rain gardens

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Parking
3. Accessible Vehicular and Pedestrian Circulation
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Music, kids classes

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Green Spaces
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Sustainable Improvements
3. Green Spaces
4. Courtyard Access and Programming
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Courtyard Programs pose a security concern.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Other (please specify)

Reducing energy consumption by having thermally efficient building enclosure (not a ton of glass) Resilient building materials like masonry - design a 100+ year building.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Similar to what the green space is currently used for. Festivals, other community programs

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Nothing - use the other green spaces and keep this project COST EFFECTIVE. WE DO NOT NEED a $100M+ building.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

not a priority - keep this cost effective

Other (please specify)

not a priority - keep this cost effective

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

not answered

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

not answered

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1.

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Other (please specify)

It's most important to retain the green space adjacent to Adams Street, which is a valuable community resource for recreation, especially for children, and is home to trees used by both resident and migrant birds.

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

community gatherings, community fundraisers

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

It's a valuable green space for the community - more programming is fine but it's not a priority for me

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

Having green space on Adams is so important! Our kids fly their kites there, play soccer, we've had girl scout meetings there, climb the trees, play football, etc. As a neighbor to Village Hall, I prefer the spill over cars on our side streets - we have so little green space in SE OP and should be prioritizing anything but parking. It's a safe space for kids to play, please don't remove it!

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Parking
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

All of the below are great in spite of my ranking

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

N/a

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

just collecting the questions, none of these answers are real

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Sustainable Improvements
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Community events.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Additional tree canopy

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Festivals, craft Fairs, village Hall info events

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Could events that currently occur in the open field south of the parking lot be done in the courtyard? Theater performances? Music performances? Picnics? Could the space be made available for event organizers to reserve?

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

Do sustainable things that offer a good ROI. Don't do them just to be able to say you did them. All of these things seem like good things but are they good enough to justify the cost? I can't answer that with the information available. We should thing about goals before solutions. Energy efficiency, stormwater management, and clean energy are all good goals. Measure these solutions against those goals - will they actually solve a problem or are they just for show? How much water happens in a storm and how much do these strategies capture? Which are most effective for the buck? How much energy does the campus use and how much can solar generate? Are there more benefits to a green roof or a solar roof? What are the pros and cons of each?

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Community engagement

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Parking
3. Accessible Vehicular and Pedestrian Circulation
4. Courtyard Access and Programming
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

1. Musical concerts 2. Art exhibitions 3. Lectures

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Courtyard Access and Programming
3. Green Spaces
4. Sustainable Improvements
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Park district events - turn over space to park district

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

-

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Cultural events

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

Leave the green space alone. Please do not build on this space. I live 1/2 block away and don't want any building there.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Sustainable Improvements
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Parking
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Taste of oak park

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Green Spaces
3. Courtyard Access and Programming
4. Parking
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I don't think this programming in the courtyard is needed. I think it's important to keep for residents to use.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Music. Public debates. Local merchant pop up.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Kids and cultural events. Smaller mid-week market

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Unsure

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Other (please specify)

I live close by and really love our small bit of greenspace, my child and his neighborhood friends play their often and I would hate for it to become a parking lot. I also love attending cultural events in the greenspace. Please leave it as grass, trees, and open space.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Green Spaces
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

civics talks, local history, participatory art and dance

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Native plantings

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Parking
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Any valuable service that would hopefully come at no cost to participants.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Parking
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Additional tree canopy

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Parking
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Parking
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

N/A

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Accessible Vehicular and Pedestrian Circulation
3. Parking
4. Green Spaces
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I don't think any are needed - why here? There are existing sites in the village that can be utilized.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Sustainable Improvements
3. Green Spaces
4. Parking
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None. The parks can be used for events.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Native plantings

Additional tree canopy

Rain gardens

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Oak Park already has dozens of public spaces for programming. Unnecessary here.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

There is no necessity to redevelop a concrete courtyard when there is a beautiful inviting greenspace at the south end of the municipal campus and there is a historical document that was found 20+ years ago when the Village attempted to place a parking structure over the Village green stating that the Village green must be maintained in perpetuity. Take a look in the archives.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Courtyard Access and Programming
3. Green Spaces
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None- use the CRC

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

don't care

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None. That's what the park district is for

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Parking
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

unsure

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Community Events, Camp/Art Classes, Open Air Space for all to study/work with tables, wifi and charging when weather permits. Use this space instead of the small lawn and use that for parking.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Accessible Vehicular and Pedestrian Circulation
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

plays, food trucks, playspace

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Green Spaces
3. Sustainable Improvements
4. Parking
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Build out into the courtyard to better utilize space.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Additional tree canopy

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Music, lectures, performances

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Parking
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

plant a native garden and involve citizens in planning and care

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Parking
3. Courtyard Access and Programming
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

this is not an event venue -- this is a government building, not a social hall

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Music. public celebrations.?

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Rain gardens

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Seasonal markets

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Rainwater collection systems

Native plantings

Rain gardens

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Green Spaces
4. Sustainable Improvements
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

NA

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Green Spaces
4. Courtyard Access and Programming
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None. No one wants to go to village hall for social events. Oak Park has plenty of areas for outdoor gatherings. Areas like Scoville Park and our other many parks are more central, closer to nature and more removed from the crazy traffic on Madison street.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Sustainable Improvements
3. Parking
4. Green Spaces
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

none, space should be available for staff

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Parking
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

music, food, spoken word

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Parking
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

none/don't care - have never used in 30 years residence in OP. Use that space for current needs!

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Courtyard Access and Programming
3. Green Spaces
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Green Spaces
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None - not a need at this location

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Green Spaces
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

community info sessions, community receptions, encourage casual use of the space with tables -- maybe the library bike could come. Different coffee shops or restaurants could set up occasionally,

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I like our courtyard how it is and the events they had scheduled during 2024. No changes please

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Green Spaces
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Additional tree canopy

Rain gardens

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

x

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Green Spaces
3. Parking
4. Accessible Vehicular and Pedestrian Circulation
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

not sure

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Additional tree canopy

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Courtyard Access and Programming
3. Parking
4. Green Spaces
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Farmers Market

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I don't care about events in the courtyard

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Parking
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Music, Art Festivals

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Courtyard Access and Programming
3. Green Spaces
4. Sustainable Improvements
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Anything other than the dead space it is now. could barely even figure out how to use it to early vote. even roofing over it and using it as village hall interior space would be better

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

It is an architectural feature, albeit a useless one, and doesnt need rethinking unless it is covered and made part of the building to accommodate the police in their cramped dungeon

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Other (please specify)

a drive up mail box where you don't have to get out of your car like so many other Village or town campuses have. I use that mailbox all the time because of it consistent and reliable Postal service. It is a pain to have to get out of the var. I suggested this when the parking lot was done what 5 years ago. Deaf ears as is frequently the case in OP when practical ideas are floated.

1. Parking
2. Courtyard Access and Programming
3. Green Spaces
4. Sustainable Improvements
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Concerts, other performances, Day in Our Village site

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Green Spaces
3. Parking
4. Accessible Vehicular and Pedestrian Circulation
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Community events like a day in the village, barrie fest types. Local performances, music, dance, community theater. Educational programs, supporting local wildlife, responsible recycling, reducing carbon footprint, etc.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Parking
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

n/a

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Additional tree canopy

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Music, farmer's market, shows

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Green Spaces
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Don't we have parks for that?

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Green Spaces
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Not important at all.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Sustainable Improvements
3. Courtyard Access and Programming
4. Parking
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Concerts, speakers, fairs, etc

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Accessible Vehicular and Pedestrian Circulation
3. Parking
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Outdoor concerts, things like a smaller scale Day in our Village or other events with community engagement.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Rain gardens

Q1. To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?

No

Q2. Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.

No

Q3. Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?

Very Important

Q5. Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?

$: Street-level parking (kept at the surface)

Q7. Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?

Yes

Q8. Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?

No

Q9. What type(s) of events would you like to see programmed within the courtyard?

It's not a necessity to do this.

Q10. Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Green Spaces
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I prefer to attend community events in the park.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Community information making transparency foremost in local government

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

This entire survey is very misleading and manipulative and doesn't include essential information. What space is considered the courtyard? I need a site plan or diagram to answer this correctly.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Permeable paving

Native plantings

Other (please specify)

Good surveys use language and terminology most people understand, and if certain terms must be used, definitions should be provided. Many people may not understand what these terms mean, and even if they do know what they mean, more information should be provided with pictures and examples. For example, I may think permeable paving is a nice idea, but I wouldn't want to see the entire green space paved in this way. I might like native plantings, but I might not want the entire space covered in them. What type of rainwater collection system? Rain barrels? Tree canopy? Do you mean more trees? What are examples of rain gardens? What does it look like if it isn't raining? Green roof on what? I have no idea what a "solar array" is.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Accessible Vehicular and Pedestrian Circulation
3. Green Spaces
4. Courtyard Access and Programming
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Civic celebrations, maybe info sessions on sustainability or other topics

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Permeable paving

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Green Spaces
3. Parking
4. Sustainable Improvements
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Special Events Holiday and Cultural Ceremonies

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Make it a playground

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Green Spaces
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Farmers market Cultural events

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Accessible Vehicular and Pedestrian Circulation
3. Parking
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

mini weekly farmers market, regular small music events (ex. Jazz trios), programmed activities for kids/adults?

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Green Spaces
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

seasonal family friendly events, concerts, cultural food events, "get to know your village first responders" event, bike safety for kids, car seat checks, gardening tips and techniques,

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Parking
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Event to get citizens to register to vote, etc.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Sustainable Improvements
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

NA

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces

3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

N/a

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Green Spaces
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Outdoor stage for performances, farmers markets

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Green Spaces
3. Accessible Vehicular and Pedestrian Circulation
4. Parking
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I don't have any suggestions

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Parking
3. Accessible Vehicular and Pedestrian Circulation
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

xx

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Rocky Horror Picture Show shows.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Other (please specify)

A trolley on Madison St.

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Green Spaces
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Community Musicians (like the porch concerts); outdoor movies; Small food festivals ("taste of Oak Park"); Meet and Greets for city officials (i.e., coffee with the village XYZ on Fridays), Local performers. Smaller gatherings more frequently.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Sustainable Improvements
2. Green Spaces
3. Parking
4. Courtyard Access and Programming
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I need time to think about this.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rain gardens

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Courtyard Access and Programming
3. Parking
4. Accessible Vehicular and Pedestrian Circulation
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Meet and greet Village Hall staff. Currently most of them seem to be in uninviting cubicles.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Native plantings

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Parking
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

N/a - we have a lovely park system in better locations

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Existing events now at south end like Juneteenth, Hispanic Heritage Month. Add in a patriotic event like Memorial Day and perhaps some other holidays?

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Native plantings

Rain gardens

Green roofs

Q1. To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?

Yes

Q2. Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.

Yes

Q3. Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Green Spaces
5. Courtyard Access and Programming

Q4. How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?

Important

Q5. Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?

$: Street-level parking (kept at the surface)

Q7. Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?

No

Q8. Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?

Yes

Q9. What type(s) of events would you like to see programmed within the courtyard?

Holiday events, vendor fairs, small concerts,

Q10. Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Rain gardens

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Sustainable Improvements
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Parking

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Neutral

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Mini-winter farm market Artist booths on select days Music during off hours Health/wellness fairs

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Current event, social welfare, diversity awareness

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Green Spaces
2. Accessible Vehicular and Pedestrian Circulation
3. Parking
4. Sustainable Improvements
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

—

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Rain gardens

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Unknown.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Sustainable Improvements
4. Accessible Vehicular and Pedestrian Circulation
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

None.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Parking
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

any event that is held that could be brought outside (weather permitting of course)

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Programmable greenspace for community events
3. Park-like amenities (playground, picnic groves, etc.)

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Accessible Vehicular and Pedestrian Circulation
2. Parking
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I wouldn't like the space enlivened. We have parks already that can accommodate that

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Accessible Vehicular and Pedestrian Circulation

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Onsite parking so that there is less overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Staff eating lunch. Other smaller village events.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Sustainable Improvements
3. Courtyard Access and Programming
4. Accessible Vehicular and Pedestrian Circulation
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

1. Live Music events programmed by a trusted venue owner & lifelong resident of Oak Park. 2. Community picnics, Juneteenth & Pride events

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Parking
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

music

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Rainwater collection systems

Native plantings

Additional tree canopy

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Courtyard Access and Programming
3. Green Spaces
4. Accessible Vehicular and Pedestrian Circulation
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$: Above ground parking structure (stacked)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Fairs, educational events

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Turf and native landscaping
2. Park-like amenities (playground, picnic groves, etc.)
3. Programmable greenspace for community events

Q11. Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.

Additional tree canopy

Green roofs

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Green Spaces
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Courtyard Access and Programming

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very unimportant

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Rotating public art displays

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Turf and native landscaping
3. Programmable greenspace for community events

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Rain gardens

Other (please specify)

Brise soleils along the exterior (street facade) would help break up the massing and reduce solar gain.

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Sustainable Improvements
3. Accessible Vehicular and Pedestrian Circulation
4. Parking
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

The existing green space is sufficient for events.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Park-like amenities (playground, picnic groves, etc.)
2. Programmable greenspace for community events
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Permeable paving

Rainwater collection systems

Native plantings

Rain gardens

Green roofs

Solar arrays

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Sustainable Improvements
4. Courtyard Access and Programming
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I don't care about the courtyard if this is the one on Madison. No one does. The only thing people care about with the property is the field. For the surrounding neighborhood, it is the closest open space for families to enjoy, and provides a nice view for the immediate surrounding homes. Building a garage or additional buildings there is the antithesis to what OP claims it is about.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Other (please specify)

Maybe just leaving the field as is. There's a novel idea for a green space.

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Courtyard Access and Programming
2. Parking
3. Accessible Vehicular and Pedestrian Circulation
4. Sustainable Improvements
5. Green Spaces

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$$$: Underground parking structure (buried)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Craft fairs

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

Yes

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

Yes

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Green Spaces
4. Courtyard Access and Programming
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

No

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

Yes

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

I am sure at this time.

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Turf and native landscaping
3. Park-like amenities (playground, picnic groves, etc.)

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Q1. **To help reinforce and reflect the identity of Oak Park and its values, should the Oak Park Municipal Campus and its entries be made more welcoming?**

No

Q2. **Do you feel the conditions are unsafe for building visitors and staff along the vehicular drive at the south end of the building between the existing parking lot and building entry? Please see diagram above for reference.**

No

Q3. **Please rank the following site improvements that should be prioritized as part of the Oak Park Municipal Campus project (with 5 being the most important and 1 being the least important).**

1. Parking
2. Accessible Vehicular and Pedestrian Circulation
3. Courtyard Access and Programming
4. Green Spaces
5. Sustainable Improvements

Q4. **How important is it to maintain some open green space and/or buffer at the south end of the existing Oak Park Municipal Campus site?**

Very Important

Q5. **Focusing on parking and greenspace, which of the following should be prioritized as part of the Oak Park Municipal Campus project?**

Greenspace onsite which could lead to more overflow parking in the adjacent neighborhood

Q6. **Keeping associated costs in mind, would you prefer to see additional parking buried, kept at the surface or stacked?**

$: Street-level parking (kept at the surface)

Q7. **Does existing site signage provide adequate directional clarity across the Oak Park Municipal Campus?**

Yes

Q8. **Keeping associated costs in mind, would you like to see the project enliven the courtyard space and make it a useful amenity for building visitors and the community?**

No

Q9. **What type(s) of events would you like to see programmed within the courtyard?**

Na

Q10. **Please rank your preference for onsite greenspace utilization (with 3 being the top preference and 1 being the last preference).**

1. Programmable greenspace for community events
2. Park-like amenities (playground, picnic groves, etc.)
3. Turf and native landscaping

Q11. **Are there any sustainable design elements that you would like to see prioritized as part of the project? Please check all that apply.**

Native plantings

Additional tree canopy
