

**Village of Oak Park  
Water & Sewer Capital Project Sheet  
2025 - 2029**

Project:	Water and Sewer Vehicle Replacement	General Priority Code:	A	General Category:	Machinery and Equipment
		Climate Priority Code:	High	Climate Impact Area(s):	Transportation; Community Health & Environmental Quality; Parks, Plants & Biodiversity

**Description:**

Replacement of Public Works Water and Sewer Division vehicles.

**Justification:**

The current equipment has been well used and is getting near the end of its useful life. The trade-in/resale will be impacted the longer it is in use. In order to operate most efficiently, newer, less worn efficient pieces of equipment are needed to keep the Water and Sewer Division the most productive it can be. Rebuilding or refurbishing will be considered when appropriate. Electric, hybrid, and alternative fueled equipment will be evaluated for usage as technology evolves. Staff will present the Board with the possible option and cost in alignment with the Village Climate Ready Oak Park Plan Goal: TS01 - Reduce Vehicle Emissions.

**Current Status:**

**Replacement Schedule:**  
 2025 - 1999 Portable air compressor (\$30,000), 2015 Backhoe (\$275,000), 2012 Rebuild Tandem axle dump truck w/ plow (\$150,000), 2012 Rebuild Tandem Axle dump truck with plow (\$90,000), 2013 F550 Service Truck (\$100,000), 2007 Rebuild Single Axle Dump Truck with plow and salter (\$150,000), Shoring Trailer (\$38,000)  
 2026 - 2007 Sewer jetter (\$550,000)  
 2027 - 2019 Meter reader vehicle (\$40,000), 2016 Utility truck (\$180,000)  
 2028 - 2019 Transit Connect mini van (\$50,000)  
 2029 - 2011 Backhoe (\$310,000)
