

GRANT OVERVIEW

Granting Agency	Grant Title	Grant Term	Grant Award
IDPH	Cities Readiness Initiatives	July 1, 2025 - June 30, 2026	\$ 63,516.00
IDPH	Public Health Emergency Preparedness	July 1, 2025 - June 30, 2026	\$ 53,551.93

Cities Readiness Initiatives

Amount: \$63,516.00

Term: July 1, 2025 – June 30, 2026

Grantor: Illinois Department of Public Health (IDPH)

Background: The Cities Readiness Initiative funds local State Certified Health Departments located in CDC-designated “Cities Readiness Initiative” or CRI jurisdictions in Illinois, outside the City of Chicago. The goal of the CRI funding is to provide certain additional dollars to State Certified Health Departments for the purposes of assessing, prioritizing, building, training and exercising the necessary resource elements and capabilities needed to save lives in the event that emergency medical countermeasures must be rapidly dispensed to the entire population within 48 hours of the decision to do so. Medical countermeasures, or MCMs, are life-saving medicines and medical supplies regulated by the U.S. Food and Drug Administration (FDA) that can be used to diagnose, prevent, protect from, or treat conditions associated with chemical, biological, radiological, or nuclear (CBRN) threats, emerging infectious diseases or a natural disaster.

Public Health Emergency Preparedness

Amount: \$53,551.93

Term: July 1, 2025 – June 30, 2026

Grantor: Illinois Department of Public Health (IDPH)

Background: The Public Health Emergency Preparedness (PHEP) cooperative agreement is a critical source of funding for state, local, tribal, and territorial public health

departments. Since 2002, the PHEP cooperative agreement has provided more than \$11 billion to public health departments across the nation. This funding helps health departments build and strengthen their abilities to effectively respond to a range of public health threats, including infectious diseases, natural disasters, and biological, chemical, nuclear, and radiological events. Preparedness activities funded by the PHEP cooperative agreement are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. This grant funds certain eligible Illinois certified local health departments who are then required to assess, prioritize, build, and exercise the necessary resource elements, tasks, and functions of the Centers for Disease Control's (CDC) 15 Public Health Emergency Preparedness (PHEP) Capabilities National Standards. This grant then requires the Village to maintain plans and programming aimed at preventing, mitigating and recovering from the top hazards to the public health in its jurisdiction.
