Non-Appropriations. You warrant that you have funds available to make all payments until the end of your current fiscal period, and shall use your best efforts to obtain funds to make all payments in each subsequent fiscal period through the end of your lease term. If your appropriation request to your legislative body, or funding authority ("Governing Body") for funds to make the payments is denied, you may terminate this lease on the last day of the fiscal period for which funds have been appropriated, upon (i) submission of documentation reasonably satisfactory to us evidencing the Governing Body's denial of an appropriation sufficient to continue this lease for the next succeeding fiscal period, and (ii) satisfaction of all charges and obligations under this lease incurred through the end of the fiscal period for which funds have been appropriated, including the return of the equipment at your expense.

By signing below, you agree to be bound by all the terms and conditions of this Agreement, including the NJPA Contract Number 043012-PIT, effective date July 11, 2012 and the PBGFS NJPA State & Local Term Rental (including the Pitney Bowes Terms) (Version 8/16) which is available at www.pb.com/states/njpa and is incorporated by reference (the "Agreement"). The Agreement will be binding on us after we have completed our credit and documentation approval process and have signed below. If software is included in the Order, additional terms apply which are available by clicking on the hyperlink for that software located at www.pitneybowes.com/us/license-terms-of-use/software-and-subscription-terms-and-conditions.html. Those additional terms are incorporated by reference.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

What's NewThe IRS has created a page on IRS.gov for information about the Form 8038 series and its instructions, at www.irs.gov/form8038. Information about any future developments affecting the Form 8038 series (such as legislation enacted after we release it) will be posted on that page.**Purpose of Form**

Form 8038-GC is used by the issuers of tax-exempt governmental obligations to provide the IRS with the information required by section 149(e) and to monitor the requirements of sections 141 through 150.

Who Must File

Issuers of tax-exempt governmental obligations with issue prices of less than \$100,000 must file Form 8038-GC.

Issuers of a tax-exempt governmental obligation with an issue price of \$100,000 or more must file Form 8038-G, Information Return for Tax-Exempt Governmental Obligations.

Filing a separate return for a single issue. Issuers have the option to file a separate Form 8038-GC for any tax-exempt governmental obligation with an issue price of less than \$100,000.

An issuer of a tax-exempt bond used to finance construction expenditures must file a separate Form 8038-GC for each issue to give notice to the IRS that an election was made to

pay a penalty in lieu of arbitrage rebate (see the line 11 instructions).

Filing a consolidated return for multiple issues. For all tax-exempt governmental obligations with issue prices of less than \$100,000 that are not reported on a separate Form 8038-GC, an issuer must file a consolidated information return including all such issues issued within the calendar year.

Thus, an issuer may file a separate Form 8038-GC for each of a number of small issues and report the remainder of small issues issued during the calendar year on one consolidated Form 8038-GC. However, if the issue is a construction issue, a separate Form 8038-GC must be filed to give the IRS notice of the election to pay a penalty in lieu of arbitrage rebate.

Shipping & Mailing
Inserting

Relay™ 3000/4000 inserters

Get your business mail out the door fast. So you can get back to business.

The easy and accurate mail assembly your business needs

Whether it's sending out monthly bills to existing customers or direct mail to build your business, your mail is critical to the success of your company. And you don't have time to spend double-checking to make sure it's right. It just needs to be perfect the first time, every time.

The Relay 3000 and 4000 inserters are specifically designed to deliver accurate, reliable processing of up to 20,000 and 40,000 pieces a month, respectively. So you can be confident your mail is not only getting out on time, but the right information is getting to the right customer. Every single month, every single time.

For more information, visit us online: pitneybowes.com/us/relayinserters

Get the advantage of 2D security, previously available to only the largest mailers.

Large-scale inserting technology on a small scale

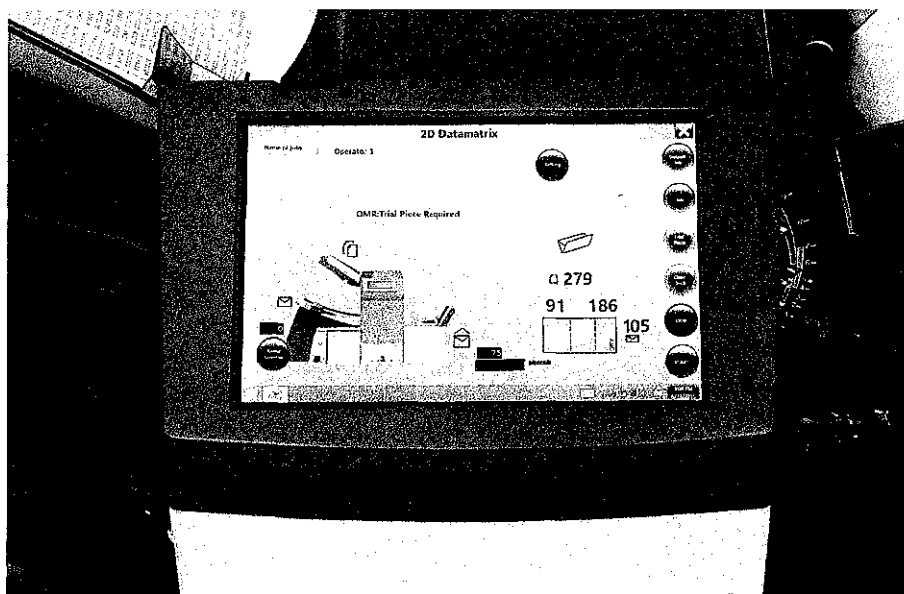

Now you can tap the full potential of your most important mail with the Relay 3000 and Relay 4000 inserters. By combining unparalleled ease of use with technology usually found in much larger inserting systems, they're designed to help your business reach its full potential too.

Enterprise-level customer data privacy capabilities

Customer data privacy concerns affect businesses of all sizes. The Relay 3000 and 4000 inserters are designed to meet the demands of an increasingly competitive marketplace and the pressure of strict compliance regulations. In fact, they're the only inserters in their class to offer the security of 2D scanning technology.

Simple. Easy. Done.

Featuring an intuitive, full-color 8" touch-screen user interface*, the Relay 3000 and 4000 inserters are easy to set up so you can be up to speed in far less time than you think. And with reliable processing, you can rest assured your mail is done right and on time.

Intuitive design and full color graphics make it easy to get mail finished accurately and on time.

* Standard on the 4000 Series, optional on the 3000 Series.

Compact and Easy-To-Use Mail Solution for Everyone

1. Automated Stacker

The exclusive high-capacity envelope stacker is designed to improve accessibility and unloading of envelopes on the fly.

2. Touch Screen Display

The graphical touch screen and intuitive user interface display make the DS-65 easy to operate by any department.

3. Insert Feeder

The high-capacity insert feeder enables you to load any type of insert (flyers, coupons or business reply envelopes).

4. Daily Mail Feeder

The dedicated daily mail feeder enables you to manually feed mail of variable content.

5. Document Feeders

The FlexFeed multi-format feeders accept several document formats for maximum flexibility.

6. Folding Technology

The exclusive PowerFold technology folds up to 8 documents. This is key for delivering professional looking mailpieces.

Fold, Insert and Seal in One Seamless Process

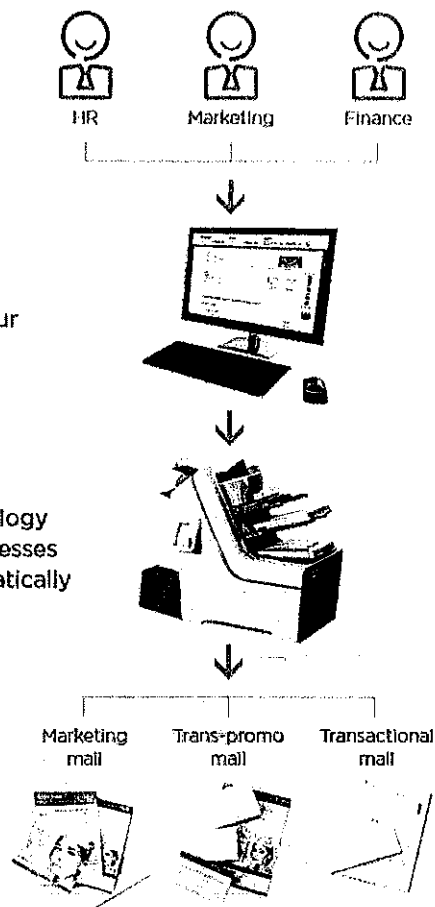

Combined with our mail management software, the DS-65 is the perfect solution to process any type of transactional mail or direct marketing campaigns.

Whether you are running checks, multi-page invoices, statements, business correspondence or transactional mail, the DS-65 is an ideal choice for a wide variety of applications.

The DS-65 enables you to adapt the contents of your mailpiece for each recipient. Neopost's barcode solution ensures the correct documents are inserted into each envelope. In a few simple steps, OMS-100 software uses your print file and adds a barcode anywhere on the document. The exclusive CIS scanning technology of the DS-65, combined with OMS-100, ensure full security and the content integrity of each envelope.

The Complete Document Process

- ① With Neopost's output management software, you have the ability to make your document intelligent by adding barcodes
- ② OMR/BCR scanning technology on the DS-65 securely processes your intelligent mail automatically
- ③ Optimize postal costs and expand your business opportunities

Environmental Commitment

The DS-65 carries Neopost's Eco-Label which aims to provide a clear and consistent set of environmental performance criteria used in the design phase of our products.

How We Reduce Our Environmental Footprint:

- Neopost limits the machine weight and the amount of raw materials used for production.
- The volume of our packaging is kept to a minimum and is 100% cardboard and recyclable.
- Packaging for the DS-65 represents less than 20% of the total weight of the packed product.
- The user-friendly sleep mode helps reduce energy consumption.
- We develop our products to ensure a minimum recyclability rate of 75%.
