Commission Choices (required)

Preferred Commission Choice

Board of Health

Reason Interested

I am highly interested in the Board of Health because I have future aspirations to pursue a health related career in the medical field such as nursing, surgery, etc. I have always been interested in Health and well being and am a great supporter of anti-drug and alcohol abuse. My friends have also always looked up to me due to my passion for healthy eating, hygiene, and supporting them to achieve their health goals. The Board of Health simply seems to be the perfect fit.

If you have already attended a meeting of this commission, when approximately?

Second Commission Choice
Environment & Energy Commission**Reason Interested**

As well as having great aspirations to supporting the overall health of the community conserving energy is an important factor that is important to discuss when it comes to overall well being of our earth. I find it very interesting discussing topics about alternative energy sources and how much energy our community is using. As well as ways we can reduce the money spent on energy in important buildings such as ridgeland commons and District 97.

Additional Information

Although I put down an interest for both The Board of Health and The Environment and Energy Commission, I am far more interested in being a part of The Board of Health.
