AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT BETWEEN THE VILLAGE OF OAK PARK AND THOMAS ENGINEERING GROUP LLC FOR ENGINEERING SERVICES FOR THE DESIGN OF THE LAKE STREET STREETSCAPE, RESURFACING, AND UTILITY IMPROVEMENT PROJECTS FOR AN ADDITIONAL \$117,560

THIS AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT dated August 15, 2016, between the Village of Oak Park, an Illinois home rule municipal corporation, and Thomas Engineering Group LLC, an Illinois limited liability company, is entered into this ______day of January, 2017 (collectively referred to as the "Parties").

WITNESSETH:

WHEREAS, the Parties entered into a Professional Services Agreement dated August 15, 2016 ("Agreement"); and

WHEREAS, the Parties seek to amend Section 2 of the Agreement pursuant to this Amendment to reflect the additional services for providing additional phase I and phase II engineering design work to include the design of improvements to Marion Street between Lake Street and Ontario Street; and

WHEREAS, the Parties seek to amend Section 3 of the Agreement pursuant to this Amendment to reflect the additional amount of \$117,560 to the Contract Price for a total amount of \$1,197,560.

NOW, THEREFORE, in consideration of the foregoing, and the mutual covenants and agreements contained herein and other good and valuable consideration, the receipt and sufficiency of which is acknowledged by the Parties, the Parties hereto agree as follows:

1. <u>AMENDMENT TO AGREEMENT</u>. Section 2 and Section 3 of the Agreement is amended by adding the underlined language and deleting the overstricken language as follows:

Section 2: Service of the Consultant

2.2. The Project consists of professional engineering services, as more completely described in the Consultant's "Professional Engineering Services for Design Engineering (Phase I & II) for the Lake Street Streetscape, Resurfacing, and Utility Projects" dated June 23, 2016 and the Consultant's "Revised Cost Proposal for RFP Solicitation #16-100:Professional Engineering Services for Design Engineering (Phases I & II for the Lake Street Streetscape, resurfacing and Utility project" dated July 18, 2016 and in the Consultant's "Proposal for Professional Engineering Services for Design Engineering (Phase I & II) for including Marion Street from Lake Street to Ontario Street as part of the Lake Street Streetscape Project" dated December 30, 2016, collectively attached hereto ("Services"). After written authorization by the Village, the Consultant

shall provide the Services for the Project. These Services shall include providing Professional Engineering Services for Design Engineering (Phase I & II) for the Lake Street Streetscape, Resurfacing, and Utility Projects as described in the Scope of Services section of the Project. The Village shall approve the use of subconsultants by the Consultant to perform any of the Services that are the subject of this Agreement.

Section 3: <u>Compensation for Services</u>

- 3.1. The Village shall compensate the Consultant for the Services in an amount not to exceed \$1,0808,000.00 \$1,197,560 ("Contract Price"). The Consultant shall be paid installments not more frequently than once each month ("Progress Payments"). Payments shall be made within thirty (30) days of receipt by the Village of a pay request/invoice from the Consultant. Payments shall be due and owing by the Village in accordance with the terms and provisions of the Local Government Prompt Payment Act, 50 ILCS 505/1 et seq., except as set forth herein.
- 2. OTHER PROVISIONS OF THE AGREEMENT TO REMAIN IN EFFECT. All other terms and conditions of the Agreement shall remain in full force and effect.
- 3. <u>EFFECTIVE DATE</u>. This Amendment to the Agreement shall be deemed dated and become effective on the date of its execution by the Village Manager of the Village of Oak Park.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK – SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be signed by their duly authorized representatives on the day and date first written above.

Mr. Bill McKenna, P.E.
Village Engineer
Village of Oak Park
Engineering Division of the Public Works Department
201 South Boulevard
Oak Park, Illinois 60302

Re: <u>Proposal for Professional Engineering Services for Design Engineering (Phase I & II) for including Marion Street from Lake Street to Ontario Street as part of the Lake Street Streetscape Project dated December 30, 2016</u>

Dear Mr. McKenna:

Please find attached the Change Order request for inclusion of Marion Street from Lake Street to Ontario Street as part of the Lake Street Improvements (LSI) project. As discussed, this section of Marion Street will be resurfaced and various elements of streetscape, lighting and ADA improvements as discussed in detail within the attached scope of work and fee package.

This package include a written scope of work, a cost estimate for consultant services (CECS), worksheets used for the basis of work-hours as well as documentation for scope of work and costs from our sub-consultants. Overall, the total fee for engineering services totals \$117,559.57.

If you require additional information, please contact Steve Pasinski at 630.430.6392 or via email at stevep@thomas-engineering.com.

Sincerely,

Thomas E. Gill, III, P.E.

President

Proposal for Professional Engineering Services for Design Engineering
(Phase I & II) for including Marion Street from Lake Street to Ontario Street as
part of the Lake Street Streetscape Project

December 30, 2016

This document presents the anticipated scope of work and expected effort associated with completion of Phase I and Phase II engineering for an additional length of Marion Street (not originally included in the project) and new scope or additional effort that is supplemental to the RFP and TEG proposal documents. The new Marion Street limits are from north of Lake Street to the Ontario Street Intersection. The scope of work discussed below is in addition to the scope that was previously negotiated and executed in the prime contract. The project team proposed for this work will be led by Thomas Engineering Group, LLC and supported by sub-consultants EJM Engineering (Lighting), WSP-Parsons Brinkerhoff (Public Involvement) and GZA International / Huff and Huff (Environmental-PESA).

TASK 1 – DATA COLLECTION AND EVALUATION

Collection and review of existing plans, ground photos, utilities.

Task 1 Effort = 10 hrs

TASK 2 – ADDITIONAL SURVEY AND PROPERTY INFORMATION SEARCH

New survey is required for Marion Street north of the influence of the Lake Street intersection. The topographic survey will extend to the Ontario Street intersection up to the radius returns on the north, west and east approaches. Survey will be provide to the store/building fronts with no steps included. All drainage structures and inverts will be surveyed and opened for pull-downs (28 hrs). Property lines and owners information will be obtained for properties along Marion south of Ontario and those properties within the influence of the ADA improvements at the intersection (12 hrs) information will be performed for all properties along this stretch of Marion Street. Download and check survey completeness (8 hrs). 5 days of vehicle charges are included as a direct costs for this task.

Task 2 Effort = 48 hrs

Direct Cost; 5 days @ \$55/day for vehicle = \$275.00

TASK 3 – ENVIRONMENTAL SURVEY UPDATES & A.P.E. COORDINATION and PESA EXTENSION

The project team will prepare and submit Environmental Survey Request Form (ESRF) Addendum for submittal to IDOT (20 hrs). IDOT is now requiring TEG to prepare an Area of Potential Effect (APE) which required research of most buildings within the corridor and documenting their historical attributes (48 hrs). A revised ESRF limits package will be submitted to IDOT and coordination with various reviewers to ensure project remains on schedule. TEG will also coordinate PESA survey work to be performed by Huff and Huff (2 hrs).

Task 3 Effort = 70 hrs

TASK 4 – DATA ANALYSIS

The Marion Street limits extension will require review of crash data, plotting of accidents and attending the crash study. Access operations, traffic patterns, and pedestrian usage will also be analyzed for incorporation into alternative analysis.

Task 4 Effort = 16 hrs

TASK 5 – LOCATION DRAINAGE STUDY

Extension of study limits for existing and proposed drainage plans.

Task 5 Effort = 32 hrs

TASK 6 – PREFERRED ALTERNATIVE

Develop preliminary geometrics and ADA designs for length of Marion Street study extension. This includes the intersection of Marion and Ontario.

Task 6 Effort = 48 hrs

TASK 7 – COORDINATION AND MEETINGS

This task include two meetings with stakeholders along Marion Street and two meetings with Village Manager. Each meeting will be for 1 person @ 4 hrs each.

Task 7 Effort = 16 hrs

TASK 8 – DRAFT PROJECT REPORT

Includes additional effort to document elements of study for extension of Marion Street.

Task 8 Effort = 16 hrs

TASK 9 – FINAL PROJECT REPORT

Incorporation of comments from Village, stakeholders, IDOT/BLRS and FHWA.

Task 9 Effort = 8 hrs

TASK 10 –ADVANCE IMPLEMENTATION STUDY WITH DETAILED DURATIONS, CONSTRUCTION STAGING AND MAINTENANCE OF TRAFFIC ANALYSIS

This task is supplemental as original scope assumed that the detailed project duration schedules would be developed after a preliminary plan submittal for each of the three individual projects (resurfacing, streetscape, and utilities) were complete. As a result of public outreach and discussions with the Village staff regarding consecutive construction seasons and potential benefits to cost and schedule using full closures on multiple staged segments of Lake Street it has become necessary to advance this work. TEG will be conducting the following duration and construction staging analyses as part of this task.

- Construction Duration for Resurfacing Project
- Construction Duration for Utilities Project
- Construction Duration for Streetscape project with following scenarios
 - o Assume Resurfacing for sections non-specialty pavement
 - Assume Reconstruction for sections of non-specialty pavement
 - Consider closures of sections combined (west and east)

- Consider closure of west only (staged central and east)
- Various sequencing and combinations of staging alternatives.

Task 10 Effort = 94 hrs

TASK 11 – PLANS, SPECIFICATIONS, AND ESTIMATES – MARION STREET

Please reference attached detailed estimates of sheet and non-sheet work. This task sub-total includes QC/QA and Administration.

Task 11 Effort = 344 hrs

TASK 12 - CRASH ANALYSIS SUPPLEMENTAL WORK

Crash data supplied by Village of Oak Park was in Police Crash Report format only. Original scope assumed data would be provided in tabular format and negotiated at an amount of 24 hrs. Police reports (count – 593 reports) had to be pre-sorted by within/not-within project limits and tabulated (37 hrs). Crashes (391) were plotted by location and coded by crash type in GIS database for purpose of crash analyses (40 hours).

Task 12 Effort = 53 hrs

TASK 13 – ADMINISTRATION

Task will include all project administration including progress reports, task coordination, invoices, and management of sub-consultants for work described above excluding the Phase II plan preparation as Administration and QC/QA is built into that estimate.

Task 13 Effort = 30 hrs

TASK 14 – QA/QC

QA/QC reviews will be performed in accordance with QA/QC plan for this project

Task 14 Effort = 15 hrs

SUB-CONSULTANT COSTS

Additional work is also required by our sub-consultants as shown below. Please reference attachments to find their specific scope and the estimates of cost.

WSP | PB to provide additional public involvement \$5,349.67

EJM to provide additional lighting design for Marion Street \$12,928.29

Huff and Huff to extend limits of Preliminary Environmental Survey Assessment \$943.35

TOTAL **\$19,221.31**

LAKE STREET STREETSCAPE, RESURFACING, AND UTILITIES PROJECT VILLAGE OF OAK PARK- COOK COUNTY REQUEST FOR PROPOSAL NUMBER 16-100 PHASE I AND PHASE II ENGINEERING SERVICES

Supplement No. 1- Additional Street Lighting Design Services

GENERAL SCOPE - PHASE II ENGINEERING SERVICES

EJM Engineering, Inc. (EJM) is pleased to submit our proposal for supplemental engineering services for the design of ornamental street and pedestrian lighting along Marion Street between Lake Street and Ontario Street. The scope of EJM design services for this project consists of the preparation of final street lighting design plans, special provisions, summary of quantities, and estimate of cost.

Scope of Services – EJM Engineering, Inc.

1. MEETINGS AND COORDINATION- 4 hours

EJM will attend meetings and conduct coordination to complete the scope of services:

- A. Attend one combined general coordination meeting with the Village of Oak Park-Included in original scope
- B. Coordination with the local Electric Utility Company- 4 hours.

2. DATA COLLECTION - 10 hours

EJM will collect and review data to complete the scope of services:

- A. Conduct one (1) field surveys for street lighting work (2 people @ 4 hours each) 8 hours
- B. Review of existing street lighting plans– 2 hours
- C. Review of design material, specifications and special provisions provided by the Village of Oak Park Included in original scope

3. FINAL STREET LIGHTING DESIGN – 90 hours

EJM will be responsible for the design of permanent street lighting system within the project limits.

- A. Design of the proposed street lighting- 84 hours
 - Final street lighting and decorative sidewalk lighting calculations- 8 hours
 - Temporary street lighting calculations- 4 hours

EJM Engineering, Inc.

- Preparation of proposed street and pedestrian lighting plans (1 sheet @ 36 hours)- 36 hours
- Preparation of temporary lighting and removal plans (1 sheet @ 16 hours)- 16 hours
- Voltage Drop Calculations- 4 hours
- Preparation of wiring plans (1 sheet @ 16 hours)- 16 hours
- Preparation of electrical details- Included in original scope
- B. Preparation of Special Provisions- 2 hours
- C. Preparation of Summary of Quantities- 2 hours
- D. Preparation of Estimate of Cost- 2 hours
- 4. **QA/QC** 4 hours
- 5. ADMINISTRATION 2 hours

General Items

This scope of services includes the design and development of PS&E's in support of the preparation of one (1) set of construction contract documents following the typical three (3) submittal review process. Breaking up or separating portions of the work into additional construction contracts or including additional submittals is not included in this scope of services.

- 1. Plan sets and Special Provisions to be prepared in English units.
- Lighting detail sheets will not be prepared to scale in order to properly illustrate installation details.
- Proposed permanent lighting designed using current Village of Oak Park Standards.
- 4. All electrical design will be in accordance with The National Electric Code (NEC), the National Electrical Safety Code (NESC) and any other applicable State or Local Electrical codes.
