

Rebuild and Reconfiguration of a 2000 Workhorse Step Van		
Bid Summary May 31, 2019		
COMPANY		NOTES
Sauber Manufacturing company	\$49,961.00	
Monroe Equipment, Inc.	N/A	Was not interested in trying to match our specs.
LDV Custom Specialty Vehicle	N/A	Could not complete bid in time allotted.
Mark's Machine Shop	N/A	Company had prior commitments and could not complete project this year.

Note: These vendors were contacted and sent out requests for bids, in addition to an ad being placed in the local paper. This is a very specialized project, and not a lot of builders are set up for refurbishing specialized municipal equipment such as this.

The only responder was the original builder of the vehicle. Sauber still has the plans from the original build and is familiar with all of the modifications are being requested. With the extensive references and familiarity with this vehicle staff is recommending approving the Sauber bid received.
