Cameron,

Per the Village's request, the following are several quotes for 2020 leaf collection service. A contract amendment is required if either of these changes is made. Rates will be subject to annual rate adjustments as outlined in the contract.

Waste Management can provide leaf collection service for six (6) weeks (a reduction from the current contracted eight (8) week service) for \$189,577.

Alternatively, Waste Management can provide curbside bagged leaf collection service (in lieu of the current service) for six (6) weeks for \$189,577. The Village can realize internal cost savings in the following ways: 1) labor and equipment savings, 2) eliminate potential safety situations, and 3) allow personnel to work on other projects.

Please let me know if you have any questions or if the Village would like to move forward with one of these quotes.

Thanks,
