Subject: RE: Dementia Friendly Designation -- Village of Oak Park, Illinois

Dear Kathleen

Thank you for the application packet of materials. I'd like to welcome Dementia Friendly Oak Park, IL to the Dementia Friendly America network of communities! It looks like you have excellent partners at the table working together to make your area more dementia friendly. Thank you for the detailed description of Oak Parks vision and goals, planning process, activities and structure. We look forward to having you as part of our network.

I have a couple requests of you:

- Please designate one contact or a single set of contacts(2) for DFA related correspondence. Note: This information will be used as DFA staff's main POC and will also be posted on our website under your community listing.
- We are able to add multiple people to our DFA Communities Google Group, as well as the newsletter. The purpose of the Google Group is to have a mechanism to connect with others across the country engaging in this work. I'm attaching an info sheet. Who would you like to be added?

I am attaching the Dementia Friendly America logos in zip files that your effort is welcome (but not required) to use.

I think that covers it for now! Again, we're so glad you are engaging in this work!

Meredith Hanley
