### **Background**

The subject property is located at 715-717 South Boulevard. Previously the Village Board approved a financial institution with a drive thru in September 2011. The property has set vacant for several years. The developer is proposing to construct a five-story mixed use development consisting of 14 residential condominium units, approximately 800 square feet of first floor commercial space, and 20 private enclosed parking spaces on the ground floor. The applicant has requested three allowances from the Zoning Ordinance; height, density and parking.

### **Alternatives**

2. Accept the Plan Commission's recommendation with additional conditions or modifications.
3. Overturn the Plan Commission's recommendation and deny the planned development application.

#### **Previous Board Action**

#### **Citizen Advisory Commission Action**

The Plan Commission, with a 7-0 vote, has recommended approval of the proposed development with conditions as referenced in the Findings of Fact report.

There were three individuals who provided testimony. Their comments were largely due to concerns about, height, density, traffic relative to loading and parking. The Plan Commission discussed each of these concerns and additional aesthetic concerns. Mr. Richard Van Zeyl, Wight Co.,- Village hired design consultant, provided a review of the architectural design by stating that they support the design in general but had issue with the balconies overhanging South Boulevard and a few other design elements. The Applicant responded to all of the Plan Commission and design consultant's review items with revised drawings for the January hearing. The Applicant will continue to work with the public art review body on their contribution to public art.
