Agenda Item Title

An Ordinance Establishing Lot 120 with up to Ten (10) Off-Street Overnight Permit Parking Spaces on Marion Street as Reviewed by the Village Board at the July 10, 2017 Special Board Meeting

Overview

At the July 10, 2017 Village Board Special Meeting, staff brought forth a recommendation previously reviewed by the Transportation Commission adapting a ten space metered parking lot into a permit parking lot with up to ten permits. The parking lot is located on Marion Street South of North Avenue.

Staff Recommendation

Approve the Resolution.

Fiscal Impact

Permit income from the lot would generate \$8,000-\$10,000 varying based on resident and non-resident permits.

The installation of signage is budgeted in the Parking Fund and will cost approximately \$200.

Background

At the July 10, 2017 Village Board Special Meeting, staff brought forth a recommendation previously reviewed by the Transportation Commission changing a ten space metered parking lot into a to permit parking lot with up to ten permits. The parking lot is located on Marion Street South of North Avenue.

This recommendation was brought forth due to the continued requests from commercial landlords and resident landlords for additional permit parking in the area. The requesters have given staff the understanding that the permits would sell out quickly due to a large need in the area.

Additionally, citizens, businesses and business associations were asked for comments regarding this recommendation and those comments are attached. Feedback is not clearly in favor or against the recommendation and attached herein.

Staff has also surveyed the existing meters, which would be eliminated. These meters have low utilization; upkeep and meter collections resulting in a higher cost than income.

Staff will stagger the introduction of permits, to assure that enough meter parking remains in the area for customers of local businesses.

Alternatives

The Village Board could request additional information from staff or the Transportation Commission before adopting the ordinance.

Previous Board Action

This recommendation was discussed at the July 10, 2017 Village Board Special Meeting.

Citizen Advisory Commission Action

This recommendation was reviewed by the Transportation Commission on April 24, 2017, as part of the larger North Avenue and Roosevelt Road parking study discussion.
