Agenda Item Title

A Resolution Approving a Contract with A.C. Pavement Striping Co. for Project No. 18-6, Micro-Surfacing, Pavement Patching and Crack-Filling of Various Streets, in an Amount not to Exceed \$450,000 and Authorizing its Execution

Overview

Competitive bids were opened on May 17, 2018, for the Micro-surfacing, Pavement Patching and Crack-Filling project. The Village combines this project with River Forest to provide cost savings with economies of scale through joint purchasing. The Village received one bid for the project from A.C. Pavement Striping Co. with the Village of Oak Park's portion in an amount of \$480,430. Staff is recommending approving the contract at the available budget amount of \$450,000 and reducing the scope of the project to fit within budget.

Staff Recommendation

Approve the Resolution.

Fiscal Impact

The FY 2018 Budget includes \$450,000 for this project in the Capital Improvement Fund in the following accounts Capital Improvement Fund, Public Works - Engineering, for Microsurfacing account no. 3095-43780-101-570974 providing \$300,000 and the Capital Improvement Fund, Public Works - Engineering, for Local Street Construction account no. 3095-43780-101-570951 providing \$150,000. The bid for the project came in \$30,430 over the budgeted amount and staff will reduce scope to fit within the budgeted amount.

Background

The Village has used microsurfacing as part of the pavement maintenance program for many years. Microsurfacing is a surface treatment that extends the service life of pavements from 5 to 7 years. Approximately 4.2 miles of streets are planned to be micropaved under this contract. Additionally, crack filling will be done on a number of streets, including some stretches along streets that have been resurfaced between 3 and 5 years ago.

This project also includes patching of local streets throughout the Village to address areas of deterioration and improve the rideability of streets. A number of locations for patching are on streets where micro-surfacing is also planned to repair distressed areas prior to applying the microsurfacing.

The Village of Oak Park has been combining this project with the the Village of River Forest for the past 6 years in order to increase the amount of work under this contract and get more competitive pricing for both communities. The Village of River Forest awards and manages their portion of the contract separately.

The contractor, A.C. Pavement Striping Co., has completed previous microsurfacing projects in the Village of Oak Park and has done an excellent job.

Alternatives

The alternative to this recommendation could be to delay action to gain additional information.

Intergovernmental Cooperation Opportunities

The Village of Oak Park combines this project with the Village of River Forest's crack filling project in order to provide cost savings with economies of scale. The Villages each award their own independent contracts for the work following bidding.

Performance Management (MAP) Alignment

This work is in alignment with the Governance Priority for the Department of Public Works for Infrastructure/Capital Programs.
