Background

The Village has been using Passport as a provider of mobile meter payments since 2014 and in 2018 another contract was executed to add on services for the issuance and enforcement of electronic parking permits, vehicle stickers, and parking citations. The costs of these services are outlined in the 2018 Agreement. In September 2018, the Village Board adopted Ordinance 18-402 which increased various permits, vehicle stickers, meter, and citation fees to offset the majority of costs associated with Passport per-transaction fees.

It is important to note that Passport's per-transaction fees are netted against revenue collected before being remitted to the Village. Therefore, staff is not making payments to Passport in the traditional sense via

accounts payable invoices for these transaction fees. However, to provide the upmost transparency, finance staff will annually prepare journal entries to both "gross-up" the revenue and record the offsetting expense against the appropriate budgeted accounts
