Fiscal Impact

The purchase of the one 2022 Ford F250 Pickup truck with plow will cost \$38,686.00. Funding is provided in the Fiscal Year 2022 Fleet Replacement Fund, Public Works Vehicle replacement, account No. 3032-43900-858-570750.

Funds for necessary equipment such as cabin/workspace up fit, light bar, lift gate, etc. will also come from these accounts but will be purchased separately from vendors who supply this equipment.

Background

The new vehicle will include 4-wheel drive, a 6.2 Liter V 8 gas engine and come with a snow plow and associated equipment. It also comes with a three-year, 36,000-mile bumper to bumper warranty & a five-year, 60,000-mile Power train warranty. The snow plow equipment will be installed by Monroe Truck Equipment.

Each year, the Village allocates funds for the annual replacement of vehicles/equipment. The Public Works Department manages the budget for vehicles/equipment that will replace those units having reached the end of their service life under the fleet replacement program.

The intent of the fleet replacement program is to replace vehicles and equipment using the established criteria for replacement of vehicles/equipment, including age of vehicle/year purchased, mileage or hours, type of use (full time, seasonal, emergency, non-emergency, etc.), consequences of down time, maintenance

history and costs, drivers evaluations, trade-in or resale values and indispensability of vehicle/equipment as a guide to guard against excessive maintenance costs and low resale values.

The Fleet Division's goal is to standardize vehicle acquisitions whenever possible in support of the fleet maintenance program and to operate the Village's fleet in a fiscally responsible manner.

The existing vehicle will be sent to Auction.

The Equipment Replacement Analysis Report for the vehicle being replaced is attached.
