The funds budgeted are included in the 2022 CIP Fund #3095, GL# 3029.41300.101.491495

Background

Firefighting hose has a typical in-service life of between 15 and 25 years. The last major purchase of hose was in 1998. Taking in account the amount of hose that the Department needs to be in-service, the plan is to replace the majority over the next three years. This is year one of this program. The bid process produced five (5) bids, of which Air One Equipment, Inc. had the lowest price for the exact product as listed.
